

VORTEX TONES

THE SOUNDSCAPE OF WATER

with 417Hz & 528Hz Solfeggio
Frequencies ...

Music can be wonderful and tones relaxing, healing or invigorating. Each element has its own distinctive vibration. Reinforced by geometry and the vortex, AQUADEA is able to illicit these tones into a perceptible range. Experience the distinctive and subtle vibrations of gold, silver and other precious metals, as they merge with the overtones of the variations of quartz, which are mirrored in the purest and untainted form of bronze.

With the support of our AQUADEA showerheads you will achieve your state of harmony and find your own personal „tone“.

SUN

AQUADEA GOLD

AU

The „tone“ of gold envelops you during your shower with warmth, vitality and light; just like the sun affects the earth. Gold always imbues you with vibrancy; even when times are challenging. Give your soul a real „sun-doping“, immerse yourself in its hearty warmth and you will experience expansiveness and a freer space.

„In the correct dosage, gold can reconfer thought with power.“ (Rudolf Steiner)

INSPIRATION

AQUADEA SILVER

AG

The potential of „creativity“ is the vibration of silver tone. The thinker, artist, therapist or ambassador within you wants to resonate out. Here it is about inspiration, esthetics and ideas, or about receiving support on the way to something new or when moving into a new era. This is true regardless of whether the endeavors are small or large. Silver will ground you and give you a sense of stability. This is especially welcomed, when many new situations arise requiring solutions.

THE INNER CHILD

AQUADEA PALLADIUM

PA

Palladium's tone reverberates equanimity, stability and concentration. It brings you to rest after you've overdrawn your reservoirs by doing much too much for others. You yourself are enough. You need no audience. Under the influence of palladium, subconscious dependencies can now dissolve. Find your way back to your self, undeterred by external influences.

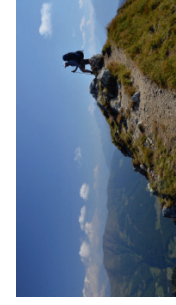

EPIPHANY

AQUADEA RHODIUM

RH

Rhodium's tone opens the vibration of epiphanies. It assists you in remembering the beauty and tranquility of your pure Beingness. The vortex field of rhodium initiates the energy to end old behavioural patterns. Through its regulative force old processes can be accelerated and completed. Mental activities quiet down. Details are no longer distracting. Your spirit lightens up and finds its inner smile. The path clears and potential success becomes a possibility!

SUCCESS

AQUADEA RUTHENIUM

RU

The tone brought by ruthenium is one of endurance and of continuity, especially when it comes to engaging in new things. It is the vibration of stabilisation and the achievement of noble goals. If you're enthusiastic about your duties but find yourself under pressure or stress, this vibration can offer you equilibrium and relaxation. It can support you in dissolving internal conflicts and finding more joy in your activities. It is at this point that nothing else stands between you and your own enthusiasm.

INTEGRITY

AQUADEA PLATINUM

PT

The "sound" of platinum speaks inherently to the righteous sovereign residing within you. An attitude of dignity and integrity can be unfold. Far, far away in another place – hardly to be envisioned – the sovereign one rules with the necessary overview, penetrating, whilst simultaneously granting stability and grounding. A wonderful sense of protection and „untouchability“ can be experienced. The beauty of the platinum vibrational field can neither be measured nor can it be defined by a material value. This can only be experienced.
